INTEREST POINTS

■ HOTEL ZONE

■ CENOTE DOS OJOS

■ ARCHEOLOGICAL ZONE

■ SIAN KAAAN RESERVE

One of the most beautiful and characteristic birds of the region is TOH. It's singular tail with a perpendicular movement and colorful feathers, it's the inspiration for this project that recreates in all its corners the natural habitat of these imposing bird.

The architectural development formed by 16 apartments of 2 types is characterized by abundant vegetation and a central pool that simulates a cenote.

The mix of materials from the region like Mayan stone for exteriors and its natural fiber walls, delimitate the relax areas that reproduce the nest of these birds. Creating a perfect ambiance for those persons who look to find comfort in nature.

The avant-garde design with a bohemian spirit takes you to a space in the middle of the jungle where these birds are from.
